PROFESSIONAL SUMMARY

I'm a highly motivated final-year Information Technology student with Technical Knowledge in java, web development. Known for my leadership in campus events and collaborative team skills, I'm eager to apply my technical and soft skills in real-world challenges and learn from industry exposure.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C/C++, SQL, PHP, DBMS

Frameworks & Libraries: React.js, Flask, Scikit-learn, Pandas, NumPy, Bootstrap, Tailwind CSS, jQuery

Databases & Other: MySQL, DSA, OOP

Tools: Git, GitHub, VS Code, Linux/Ubuntu (Beginner).

WORK EXPERIENCE

CodElevate Technologies | *Full Stack Web Development Intern* Jan 2024 – Jul 2024 | Maharashtra, India

Technologies: React.js, PHP, MySQL, Bootstrap, JavaScript, jQuery, HTML5, CSS3, REST APIs, Git

- Developed a full-stack e-commerce web application using React.js, PHP REST APIs, and MySQL, featuring separate customer and admin interfaces for online shopping and store management.
- Implemented product search and filtering, shopping cart, wishlist, user authentication, customer reviews, invoice generation, and order management.
- Built an admin dashboard for product and category management, inventory tracking, customer records, and sales summaries, integrating server-side validation and role-based access control to support secure order processing and stock updates.

FEATURED PROJECTS

Heart Disease Predictor Python · Flask · Pandas · NumPy · Scikit-learn · ML

- Developed a machine learning web application using Python and Flask to estimate heart disease risk based on patient health measurements and clinical indicators.
- Integrated a Logistic Regression model with a Flask API to process patient inputs and generate prediction results with estimated risk probabilities.
- Built an interactive frontend using HTML, CSS, and JavaScript, implementing input validation, categorical data encoding, and error handling to display prediction results through a user-friendly interface.

Uber Rides & Revenue Operations Analytics Dashboard Power BI · Excel Analytics

- Developed an interactive Power BI dashboard to analyze ride bookings, revenue trends, trip distances, and vehicle-category performance.
- Visualized key performance indicators (KPIs), including completed and lost bookings, total revenue, average trip distance, and customer and driver ratings.
- Created monthly and quarterly trend visualizations to compare business performance and support data-driven analysis of ride operations.

EDUCATION

PRMCEAM, Badnera | *B.E. in Information Technology* 2024 – 2027 (7th Sem)
Badnera-Amravati, Maharashtra

Government Polytechnic, Arvi | *Diploma in Computer Science & Engineering* 2021 – 2024
Arvi, Wardha, Maharashtra | **Aggregate: 79.31%**

New English High School, Wardha | *Secondary School Certificate (SSC, Class X)* Passed 2021
Wardha, Maharashtra | **Percentage: 83.00%**
